

REMARKS

The present application has been accorded an Allowance Date and is being prepared for issuance. However, the Notice to File Corrected Application Papers dated June 23, 2010 identified specification/drawing inconsistencies. Specifically, page 18 of the specification referred to FIG. 8, but no drawing with that designation was described in the brief description of the drawings and no drawing with that designation was present in the application.

In response, the present amendments to the specification have removed all references to FIG. 8.

Further, Applicants discovered other specification/drawing inconsistencies. Specifically, the paragraphs on page 16, line 29 – page 18, line 19 referred to FIG. 7 and elements thereof that are inconsistent with the present application. The present amendments remove these references.

These amendments merely embody the correction of formal matters without changing the scope of the claims.

It is believed that the present application is in complete condition for issuance and favorable action, therefore, is respectfully requested. Please charge any deficiencies or credit any overpayments required by this Response to Deposit Account No. 04-1403.

Respectfully requested,
DORITY & MANNING, P.A.
